

Elevating Indonesian Spirits with Banda Fine Spiced Negroni Gin from Spice Islands Distilling Co.

Nestled in the heart of Bali, Spice Islands Distilling Co. stands as a beacon of genuine craft distillery, propelled by an impassioned mission to 'Raise Indonesian Spirits'. Committed to showcasing Indonesia's vibrant tapestry of botanicals and flavors, we are thrilled to unveil the latest gem in our collection — the **East Indies Banda Fine Spiced Negroni Gin**.

Inspired by the lush and exotic botanicals native to Indonesia, the East Indies Gin series debuted with the East Indies Archipelago Dry Gin in November 2021, riding the global wave of craft gin appreciation. This small-batch gin exemplified the distillery's unwavering dedication to highlighting the diverse and vibrant flavors of the Indonesian archipelago.

The vision to elevate Indonesian spirits on the world stage continues with **East Indies Banda Fine Spiced Negroni Gin**, a true masterpiece crafted with precision. In the world of Negronis, a gin must work diligently to cut through the bitterness of Campari and the sweetness of vermouth. Many gins tend to lose their distinctive character in a Negroni. However, the **Banda Fine Spiced Negroni Gin** is meticulously tailored for this iconic cocktail. While its flavor is undeniably bold for a classic G&T, it truly comes into its own in a Negroni, where the magic unfolds.

The bold spice of Indonesian mace and nutmeg intertwines seamlessly, creating a Negroni experience that is unparalleled in its balance and complexity. The magic happens as the robust spice of Bandanese mace and nutmeg power through, delivering a supremely balanced and intricate Negroni without equal.

For those seeking premium archipelago-inspired spirits with timeless appeal to tantalize their palates, the invitation is clear — it's time to savor the **East Indies Banda Fine Spiced Negroni Gin**.
