# Bali's and Jakarta's Newest Restos & Bars to Try in 2024

## The Iron Fairies Bali

After establishing a few venues worldwide, one of the most anticipated and magical entertainment venues has come to Bali. Located alongside Jl. Petitenget, The Iron Fairies Bali offers the best high-end nightlife of Seminyak, such as live bands, DJs, innovative foods, and exceptional mixologies, in the centre of splendid and magical interiors.

The Bali venue of The Iron Fairies became the biggest among its branches, designed by Ashley Sutton, creating this magical place as you have never seen before. It's takes cues from his own book trilogy about miners trapped underground, tasked with forging iron fairies from the ore in Western Australia. Furnished in raw, iron, timber, and soft, supple leather. The space handles 500 guests across the main workshop space on the first floor and mezzanine level including eight individually designed casting rooms. A wonderland of industrial steampunk, hand-made furnishings, and big working mine machinery attached to the walls. The Bali branches will be the new home to 12 fairies, each having its own personality and identity.

## CONGO Bar

CONGO Bar offers a unique fusion of natural elements and urban sophistication within Jakarta's SCBD Park. As patrons step into its jungle-inspired ambiance, they are greeted by a cave-like interior adorned with green moss and leather-bound sofa booths, giving an intimate sense for conversations or casual gatherings. A crafted cocktail menu by esteemed bartender Imammudin Azai promises a super experience, with each drink reflecting each personalities of CONGO's animal icons. Complemented by tasteful snacks, CONGO Bar invites guests to embark on a journey of relaxation and indulgence, making it the perfect destination for escaping the city's hustle.
