

East Indies London Dry Gin : The Essential New Classic Gin Distilled in Bali

A new classic is born in Bali.

East Indies London Dry Gin brings timeless
craftsmanship and island character to every pour

Our newest creation, East Indies London Dry Gin, reimagines a timeless classic through the lens of our tropical home. It is a gin built on clarity and character, capturing the crisp essence of juniper with the bright, aromatic soul of Indonesia.

Inspired by the legacy of The Spice Islands, once famed for their rich bounty of botanicals, we continue that story today. Each small batch is distilled with care in our CARL copper stills, blending Macedonian juniper, Indonesian citrus, and gentle local spices to create a smooth and expressive spirit that feels both familiar and new.

As our Master Distiller Mitch Hayhow shares:

“EAST INDIES LONDON DRY GIN IS CRAFTED TO BE THE CLASSIC
YOU CAN ALWAYS COUNT ON — BRIGHT, BALANCED,
AND BUILT TO SHINE IN EVERY SERVE”

From a clean Martini to a perfectly paired tonic, this gin celebrates the beauty of simplicity and the spirit of craftsmanship.

A new classic, distilled in Bali for the world to enjoy. Now available at select bars, restaurants, and premium retailers across Jakarta and Bali.

A handwritten signature in black ink, appearing to read 'Mitch Hayhow'.
