

Looking Back at CellarFiesta Singapore 2026

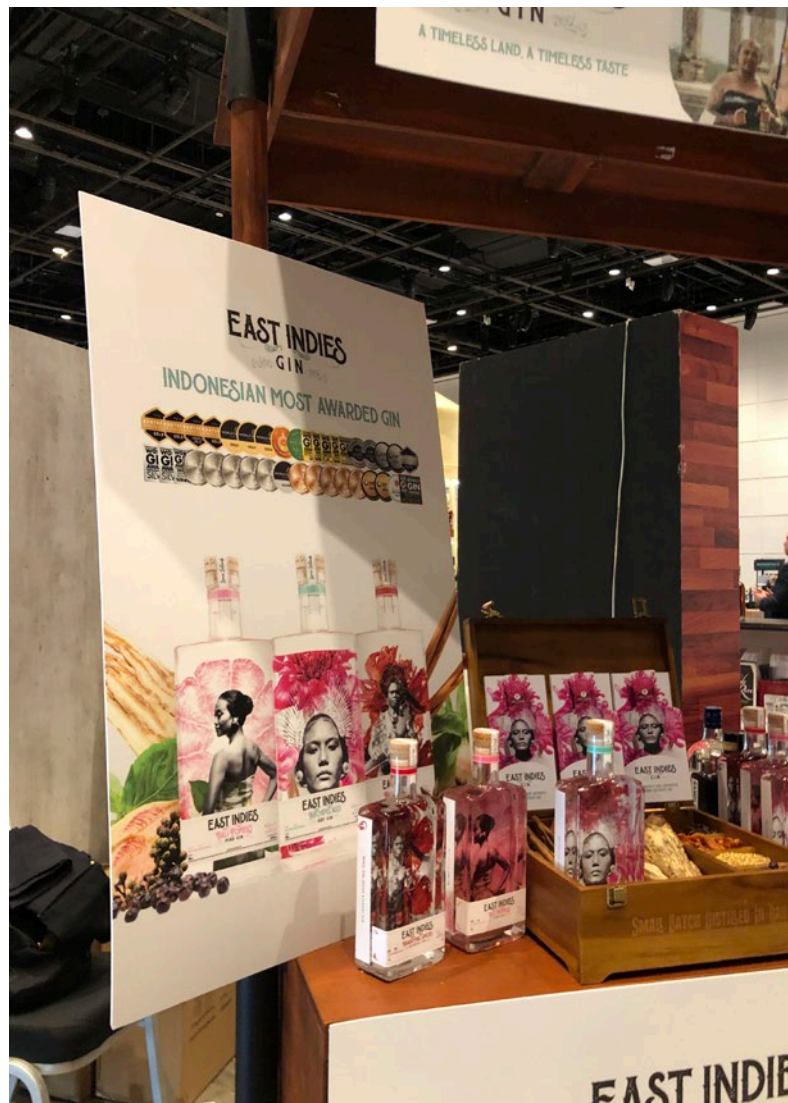

Returning to CellarFiesta Singapore for another year, we were delighted to once again share the flavours and stories of Indonesian spirits with an international audience.

Over three days at Suntec City Convention Centre, we welcomed visitors who were curious to discover what makes Indonesian spirits unique. From introducing the botanicals behind East Indies Gin to sharing the rich coffee character of Nusantara Cold Brew, every tasting sparked conversations about the diversity, craftsmanship, and heritage behind our spirits.

It was especially rewarding to see both familiar and new faces at our booth. Whether reconnecting with those who had discovered us at previous editions or introducing our spirits to first-time visitors, every conversation reinforced the growing appreciation for Indonesian craft spirits beyond our shores.

From the bright citrus notes of East Indies Gin Bali Pomelo to the spice-forward character of Banda and the smooth finish of Nusantara Cold Brew, each tasting became an opportunity to showcase a different side of Indonesia.

Beyond the spirits themselves, CellarFiesta continues to be a wonderful platform for connecting with bartenders, retailers, distributors, and fellow spirits enthusiasts from across the region. These conversations and shared experiences are what make events like this so meaningful for us.

A heartfelt thank you to everyone who visited our booth, raised a glass with us, and supported our journey. We look forward to continuing to share the flavours of Indonesia with even more people around the world and hopefully seeing many of you again next year.
